Roller Bearing Grease KP2K-30 9.58101

DT Spare Parts Roller Bearing Grease is a lithium soap grease characterized by excellent protection against wear and corrosion as well as good aging stability.

It is used to lubricate heavily loaded roller and plain bearings with normal to high speeds and for sliding surfaces with high pressure. It is mechanically very stable, easily delivered and has proven itself even in dusty and damp operating conditions.

Spezifikationen:

- NLGI Grade 2
- DIN 51825 - KP2K-30
